# ABOUT THE COMPANY

Logistic-Evex has been operating and growing in the European TSL market since 2003.

We provide comprehensive transport and logistics solutions, always tailored to the customer's needs. We specialize in the transportation of full truckloads (FTL) and partial loads (LTL) in Europe.

We have modern fleet that meets the euro 6 combustion standard, entitling us to enter virtually any of the European cities.

## OUR MISSION

We offer integrated trucking services of the highest quality based on modern fleet, innovative technological solutions, qualified and close-knit team.

## VISON

To be a pan-European, reliable and trustworthy, brand in the TSL industry, guided by our four key principles: partnership, professionalism, safety and corporate social responsibility. We want to create an environment in which we become an indispensable part of your business.

# » International Transport

Logistic-Evex provides full truckload (FTL) and partial truckload (LTL) transportation services throughout Europe, including Western Europe in particular. Cooperation with customers includes Germany, the Czech Republic, Austria, Italy, France, Spain, Benelux, Ireland and England, among others. It is worth mentioning that we are also open to making connections in less frequented directions.

Industries we serve are: automotive, furniture, construction, food, consumer electronics, household appliances, household chemicals, cosmetics industry, heavy industry, light industry, import, export.

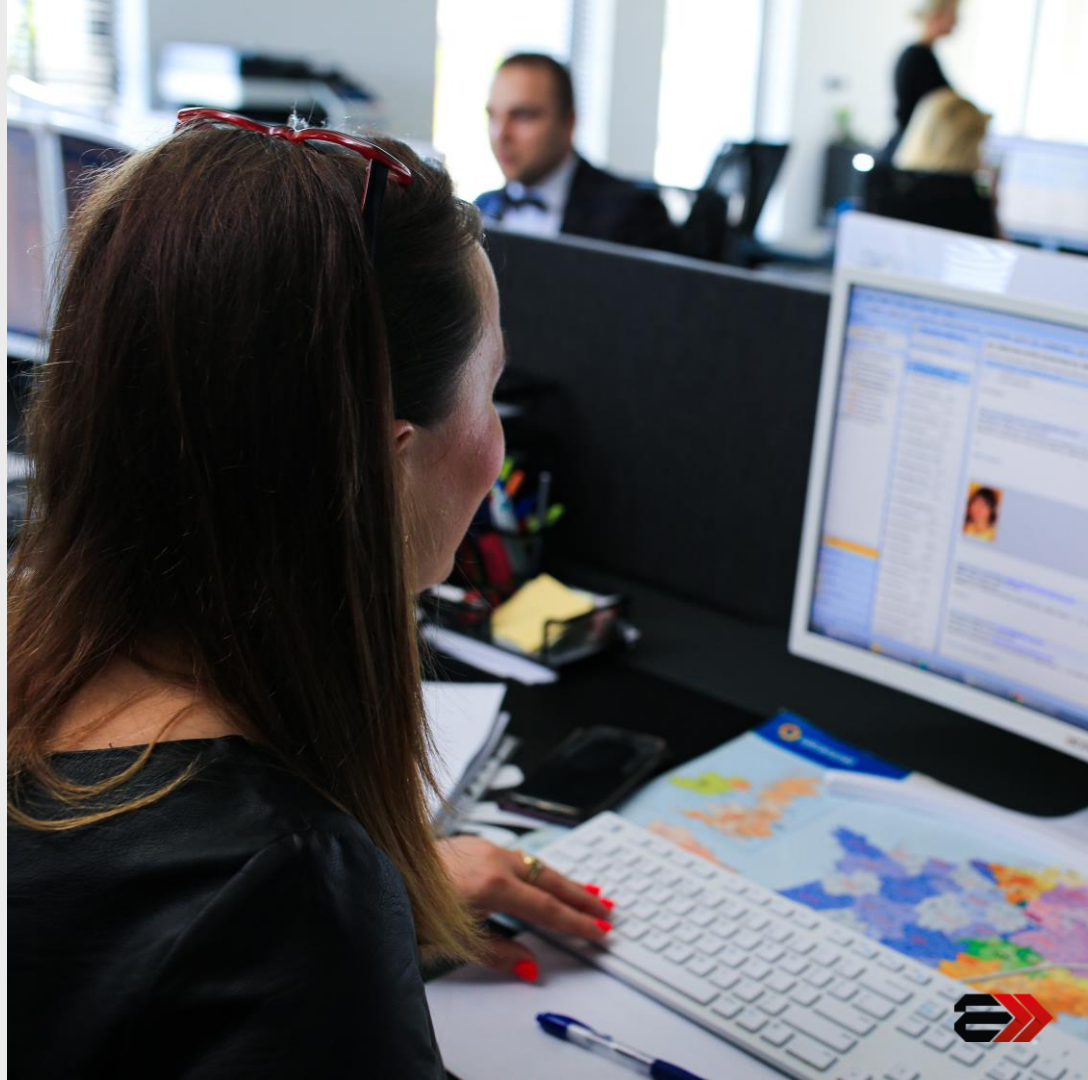

# » International shipping

One of the most important services we offer is the execution of orders for the organization of international cargo transportation throughout Europe. Thanks to our professional team, the whole process runs extremely smoothly. Our experts speak several foreign languages (Polish, English, German, Dutch, Spanish, Italian). The availability of our employees means that even in emergency situations we immediately provide support and assistance to our customers.

So far we have primarily established cooperation with contractors from countries located in Western Europe, i.e. the Czech Republic, Germany, Austria, Italy, France, Spain, Benelux, Ireland and England, but our business is developing and we are expanding the circle of countries where we can offer our services.
